Skills & Abilities

PROBLEM SOLVING & ARCHITECTURE

Full-Stack Vision: Ability to analyze business requirements and translate them into end-to-end software solutions, managing both server-side logic and the end-user experience, as demonstrated in the point-of-sale system for Facturamerica.com.

Analysis & Design: Skilled in designing system architecture from the ground up, selecting the appropriate technologies to meet project goals, as showcased in the bidding system for the Church of Jesus Christ.

COMMUNICATION

Effective Technical Communication: Ability to explain complex technical concepts in a clear and simple manner, demonstrated by creating and teaching the "Domina JavaScript" course.

Customer-Focused Approach: Leveraging 6 years of customer service experience, I possess a strong ability to understand end-user needs and collaborate effectively with non-technical teams.

LEADERSHIP & PROACTIVITY

Autonomous Project Management: Demonstrated initiative by taking full ownership of projects, from initial planning to final delivery, working independently to achieve key objectives.

Mentorship & Training: Committed to guiding and sharing knowledge with others, showcasing leadership through the creation of educational materials and mentoring fellow developers.

Professional Experience

WEB DEVELOPMENT| VIRTUAL MENTORS | JANUARY 2020 - PRESENT

Website for E.M.A Auto Repair, Winchester, Virginia - Developed a fully responsive website using HTML, CSS, JavaScript, and PHP.

E-commerce platform for Salvadoran YouTubers "Deschavetados" – Built with Spring, Bootstrap 4, Thymeleaf, HTML5, and JQuery 3, using MySQL as the database.

Bidding System for The Church of Jesus Christ of Latter-day Saints - Created a comprehensive bidding system using Spring Boot 3.2.3 and MySQL with JasperReports 6.20.6

Point of Sale (POS) and Invoicing System for Facturamerica.com (a Virtual Mentors project) - -

-Frontend: React 18.2.0, Vite 5.0.8, TailwindCSS 3.3.6

-Backend: Spring Boot 3.2.0, Spring Data JPA, Spring Security, MySQL, iText, Lombok.mbok.

Authored and Instructed an Online Course for Udemy: "Domina JavaScript: Crea una aplicación Fullstack de ajedrez" (Master JavaScript: Build a Full-Stack Chess Application). The course covers modern HTML5, CSS, and JavaScript, including Flexbox/CSS Grid for the frontend, and a Node.js/Express.js backend with a PostgreSQL database.

CUSTOMER SERVICE REPRESENTATIVE| VARIOUS CALL CENTERS| NOV 2014 - OCT 2020

Provided high-quality customer service and technical support for major accounts, including:

Cricket (at Teleperformance)

AT&T Internet, Cable & Phone (at FUSION BPO)

Choice Hotels (at Teleperformance)

TECHNICAL AND LANGUAGE INSTRUCTOR| VARIOUS INSTITUTIONS| 2010 - 2014

Instructed diverse student groups in courses covering Information Technology, Electronics, and English. Developed instructional materials to explain complex technical concepts in a clear and effective manner and fostered a hands-on learning environment by adapting course content to meet individual student needs.

PROGRAMADOR JAVA | AEROMAN | JANUARY – NOVEMBER 2009

Worked on-site at Aeroman's IT department, developing applications with the Java Struts framework. Utilized JDeveloper, Oracle SQL Developer, and TortoiseSVN for version control as a consultant for "Contactos y Oportunidades."
